ABOUT THE CBU DURING THE WAR

On the CBU initiatives and following many meetings with FIEC, the **Task Force FIEC – EIC “Ukraine”** was established.

It unites **all European construction business for the future reconstruction** of our country. During the meetings of the Task Force FIEC-EIC “Ukraine”, the issues of providing assistance to Ukraine, including training abroad of the Ukrainian builders are actively discussed

The main task is **to develop a plan of the post-war reconstruction** and development of Ukraine.

The CBU is actively involved in **supporting affected communities**: together with international partners, it actively collaborates on the development of shelter projects and projects for the reuse of hospitals.

THE ROLE OF CBU IN THE RECONSTRUCTION OF UKRAINE:

1. Conducts **webinars and trainings** for communities and businesses

2. Engages **international** and **Ukrainian** businesses in the reconstruction process

3. Developed **key principles of reconstruction** for the international community

4. Works on **simplifying procedures**

5. Organizes **meetings with communities** to discuss practical reconstruction experience

The Confederation of Builders of Ukraine has joined the Expert Councils

under the State Agency for Restoration and Infrastructure Development of Ukraine, focusing on **key areas of infrastructure recovery**:

- Construction of water supply, sewerage, and wastewater treatment systems and networks
- Restoration and development of road infrastructure
- Restoration and development of energy infrastructure, renewable energy sources, energy efficiency, and energy saving
- Restoration and development of residential buildings, social and transport infrastructure
- Digital development, digital transformation, and digitalization

Confederation of Builders of Ukraine is part of the **working group** of the Ministry for Communities and Territories Development of Ukraine tasked with **developing the State Housing Policy Strategy**.

The “Architectural Navigator” project

A catalog of solutions for Ukraine’s reconstruction.

It is a large-scale **digital library of verified architectural designs** that will serve as the foundation for fast, high-quality, and transparent reconstruction of damaged infrastructure in Ukraine.

It will enable:

 Build 2 times cheaper

 Build 2 times faster

 Ensure high construction quality

 Minimize corruption risks

WE WILL WIN AND REBUILD EVERYTHING!

CBU is actively working to address the issue of workforce shortages in the construction sector:

Together with its partners, the Confederation of Builders of Ukraine is implementing the **Bridging Skills for Construction** project within the framework of the multi-donor Skills4Recovery initiative.

The project promotes the development of a **shared vision and practical solutions for workforce training** and the establishment of effective dialogue between vocational education institutions and the private sector. This will help address the shortage of skilled labor, **align labor market supply and demand**, and ensure the long-term sustainability of the construction sector in the context of Ukraine's recovery.

CBU is initiating the **expansion of cooperation between businesses and educational** institutions, particularly vocational schools, to train in-demand specialists

CBU is participating in the **update of the National Classifier of Occupations**, aligning it with the international ISCO-08 classification

CBU is working on the **development of new professional standards**

Without stopping during wartime, the CBU has held over 250 events.
